GOVERNMENT PROCUREMENT: THE PLURILATERAL AGREEMENT

Statistics reports under Article XIX:5 of the GPA

Pursuant to [Article XIX:5](#) of the GPA, Parties are obliged to collect and provide to the GPA Committee on an annual basis, statistics in relation to procurements undertaken by that Party that are covered by the Agreement. Statistics to be provided include statistics on the number and estimated value of contracts awarded. Such statistics must be broken down by entity and categories of products and services. To the extent possible, statistics must also be provided on the country of origin of products and services purchased by a Party's entities.

STATISTICAL REPORT FOR 2003 ON PUBLIC PROCUREMENT ACCORDING TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

NORWAY

The following communication contains the Norwegian statistical report on public procurement for 2003. The report shows the value of public contracts subdivided by type (supplies, works or services) and by procedure (open, restricted and negotiated). There are also indications on nationality of the suppliers and products. A listing by CPV numbers on a two-digit level is also included in the statistical report presented.

The statistical material is based on information from TED (Tenders Electronic Daily) where, in 2003, 231 contract awards with a total value of Nkr 6,907 million were found. The statistical material indicates that about 2.6 per cent of the contract value was awarded to foreign suppliers. The actual figure is, however, higher because of the number of Norwegian suppliers that are subsidiaries of foreign companies, or agents for foreign companies is unknown.

I. BACKGROUND

This Statistical Report on Public Procurement under the Agreement on Government Procurement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 2003, divided into two groups: classical sector and utility sector. The classical sector includes procuring entities listed in Annexes 1 and 2 to the GPA.

The report is divided by CPV codes and type of procurement (supplies, services and works). Each type of procurement is further subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits.

II. METHOD

Contracting authorities that have awarded a contract above the threshold shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronic Daily (TED) database. In order to present all contracts awarded in Norway in 2003, a search for tenders from the internet site: <http://ted.eur-op.eu.int/static/home/en/> was made. From this site, the data was exported and prepared into MS Excel.

All contracts awarded in 2003 were divided as follows:

- | | |
|----------------------------------|-------------------|
| • Supply contracts | Listed in Annex 1 |
| • Service contracts | Listed in Annex 2 |
| • Works contracts | Listed in Annex 3 |
| • Classical sector by CPV Number | Listed in Annex 4 |
| • Utilities sector | Listed in Annex 5 |
| • Utilities sector by CPV Number | Listed in Annex 6 |
| • Nationality of suppliers | Listed in Annex 7 |

1. Total

This statistical report covers 231 contract awards with a total value of Nkr 6,907 million. Among the 231 contract awards, contract value is missing for 50 of these after completion by telephone.

Of the 231 contract awards, there were:

- 97 supply contracts, with a total contract value of Nkr 2,489 million
- 102 service contracts, with a total contract value of Nkr 2,820 million
- 33 works contracts, with a total contract value of Nkr 2,298 million
- 15 utilities contracts, with a total contract value of Nkr 318 million.

2. Supply contracts (Annex 1)

The 97 supply contract awards given by 61 contracting authorities had a total value of Nkr 2,489 million. Approximately 5.4 per cent of the contract value was awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the supply contracts, 77 contracts were awarded by open procedure, accounting for 64 per cent of the value of supply contracts; two contracts were awarded by restricted procedure, accounting for 1.3 per cent of the value of supply contracts; and 18 contracts were awarded by negotiated procedure, accounting for 34.7 per cent of the value of supply contracts.

3. Service contracts (Annex 2)

A total of 55 contracting authorities awarded 102 service contracts with a total value of Nkr 2,820 million. Zero per cent of the contract value was awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the 102 contracts, 61 contracts were awarded by open procedure, representing 87.4 per cent of the total value of service contracts; seven contracts were awarded through restricted procedure, accounting for 0.2 per cent of the value of service contracts; and 34 contracts were awarded through negotiated procedure, accounting for 12.4 per cent of the value of service contracts.

4. Works contracts (Annex 3)

A total of 20 contracting authorities awarded 33 works contracts with a total value of Nkr 2,298 million. Zero per cent of the contract value was awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the 33 contracts, 24 contracts were awarded by open procedure, representing 78 per cent of the total value of works contracts; four contracts were awarded through restricted procedure, accounting for 12 per cent of the value of works contracts; and five contracts were awarded through negotiated procedure; accounting for 10 per cent of the value of works contracts.

5. Utility contracts (Annexes 5 and 6)

The 15 utility contract awards published in TED were awarded by five contracting authorities, and have a total value of Nkr 318 million. Zero contracts were awarded using open procedure and accounts for zero per cent of the total value. Restricted procedure was used in one case, consisting of eight per cent of the total value, and 14 contracts were awarded using the negotiated procedure, representing 92 per cent of the total value of the contracts awarded.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics, all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts were awarded to suppliers with a foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is usually no indication in the notice in TED as to which main project these contract awards belong to, or whether the subcontract is included in the main project or not.

3. Prices and estimated value

All prices are given in Norwegian kroner (Nkr), excluding Value Added Tax (VAT).

Some contract awards do not state the price. Contracting authorities in the utilities sector are not obliged to state the contract value in post contract award notices. Contracting authorities in the classical sector may postpone publishing the contract value to guard commercial interests.

4. Listing of contracts by CPV number

Of the contracts awarded in the classical sector, all contracts were not assigned to a CPV number. Thus, the summing of contracts in Annex 4 will not add up completely with the total number of contracts reported in Annexes 1 to 3.

STATISTICAL REPORT FOR 2002 ON PUBLIC PROCUREMENT ACCORDING TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

NORWAY

The following communication contains the Norwegian statistical report on public procurement for 2002. The report shows the value of public contracts subdivided by type (supplies, works or services) and by procedure (open, restricted and negotiated). There are also indications on nationality of the suppliers and products. A listing by CPV numbers on a two-digit level is also included in the statistical report presented.

The statistical material is based on information from TED (Tenders Electronic Daily) where, in 2002, 223 contract awards with a total value of Nkr 4,024 million were found. The statistical material indicates that about 2.6 per cent of the contract value was awarded to foreign suppliers. The actual figure is, however, higher because of the number of Norwegian suppliers that are subsidiaries of foreign companies, or agents for foreign companies is unknown.

I. BACKGROUND

This Statistical Report on Public Procurement under the Agreement on Government Procurement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 2002, divided into two groups: classical sector and utility sector. The classical sector includes procuring entities listed in Annexes 1 and 2 to the GPA.

The report is divided by CPV codes and type of procurement (supplies, services and works). Each type of procurement is further subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits.

II. METHOD

Contracting authorities that have awarded a contract above the threshold shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronic Daily (TED) database. In order to present all contracts awarded in Norway in 2002, a search for tenders from the internet site: <http://ted.eur-op.eu.int/static/home/en/> was made. From this site, the data was exported and prepared into MS Excel.

All contracts awarded in 2002 were divided as follows:

- | | |
|----------------------------------|-------------------|
| • Supply contracts | Listed in Annex 1 |
| • Service contracts | Listed in Annex 2 |
| • Works contracts | Listed in Annex 3 |
| • Classical sector by CPV Number | Listed in Annex 4 |
| • Utilities sector | Listed in Annex 5 |
| • Utilities sector by CPV Number | Listed in Annex 6 |
| • Nationality of suppliers | Listed in Annex 7 |

1. Total

This statistical report covers 223 contract awards with a total value of Nkr 4,024 million. Among the 223 contract awards, contract value is missing for 21 of these after completion by telephone.

Of the 223 contract awards, there were:

- 109 supply contracts, with a total contract value of Nkr 2,715 million
- 100 service contracts, with a total contract value of Nkr 711 million
- 19 works contracts, with a total contract value of Nkr 694 million
- 25 utilities contracts, with a total contract value of Nkr 223 million.

2. Supply contracts (Annex 1)

The 109 supply contract awards given by 65 contracting authorities had a total value of Nkr 2,715 million. Approximately 0.6 per cent of the contract value was awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the supply contracts, 83 contracts were awarded by open procedure, accounting for nine per cent of the value of supply contracts; two contracts were awarded by restricted procedure, accounting for 0.6 per cent of the value of supply contracts; and 24 contracts were awarded by negotiated procedure, accounting for 80.4 per cent of the value of supply contracts.

3. Service contracts (Annex 2)

A total of 56 contracting authorities awarded 100 service contracts with a total value of Nkr 711 million. Approximately two per cent of the contract value was awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the 100 contracts, 41 contracts were awarded by open procedure, representing 56 per cent of the total value of service contracts; 17 contracts were awarded through restricted procedure, accounting for two per cent of the value of service contracts; and 42 contracts were awarded through negotiated procedure, accounting for 34 per cent of the value of service contracts.

4. Works contracts (Annex 3)

A total of 13 contracting authorities awarded 19 works contracts with a total value of Nkr 694 million. Zero per cent of the contract value was awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the 19 contracts, 15 contracts were awarded by open procedure, representing 86 per cent of the total value of works contracts; one contract was awarded through restricted procedure, accounting for eight per cent of the value of works contracts; and three contracts were awarded through negotiated procedure; accounting for six per cent of the value of works contracts.

5. Utility contracts (Annexes 5 and 6)

The 25 utility contract awards published in TED were awarded by 12 contracting authorities, and have a total value of Nkr 223 million. Two contracts were awarded using open procedure and accounts for 19 per cent of the total value. Restricted procedure was used in zero cases, consisting of zero per cent of the total value, and 23 contracts were awarded using the negotiated procedure, representing 81 per cent of the total value of the contracts awarded.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics, all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts were awarded to suppliers with a foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is usually no indication in the notice in TED as to which main project these contract awards belong to, or whether the subcontract is included in the main project or not.

3. Prices and estimated value

All prices are given in Norwegian kroner (Nkr), excluding Value Added Tax (VAT).

Some contract awards do not state the price. Contracting authorities in the utilities sector are not obliged to state the contract value in post contract award notices. Contracting authorities in the classical sector may postpone publishing the contract value to guard commercial interests.

4. Listing of contracts by CPV number

Of the contracts awarded in the classical sector, all contracts were not assigned to a CPV number. Thus, the summing of contracts in Annex 4 will not add up completely with the total number of contracts reported in Annexes 1 to 3.

STATISTICAL REPORT FOR 2001 ON PUBLIC PROCUREMENT ACCORDING TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

NORWAY

The following communication contains the Norwegian statistical report on public procurement for 2001. The report shows the value of public contracts subdivided by type (supplies, works or services) and by procedure (open, restricted and negotiated). There are also indications on nationality of the suppliers and products. A listing by CPV numbers on a two-digit level is also included in the statistical report presented.

The statistical material is based on information from TED (Tenders Electronic Daily) where 218 contract awards with a total value of Nkr 6,690 million were found. The statistical material indicates that about 2.6 per cent of the contracts were awarded to foreign suppliers. The actual figure is, however, higher because of the number of Norwegian suppliers that are subsidiaries of foreign companies, or agents for foreign companies is unknown.

I. BACKGROUND

This Statistical Report on Public Procurement under the Agreement on Government Procurement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 2001, divided into two groups: classical sector and utility sector. The classical sector includes procuring entities listed in Annexes 1 and 2 to the GPA. The utility sector includes procuring entities listed in Annex 3 to the GPA.

The report is divided by CPV codes and type of procurement (supplies, services and works). Each type of procurement is further subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits.

II. METHOD

Contracting authorities that have awarded a contract above the threshold shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronic Daily (TED) database. In order to present all contracts awarded in Norway in 2001, a search for tenders from the internet site: <http://ted.eur-op.eu.int/static/home/en/> was made. From this site, the data was exported and prepared into MS Excel.

All contracts awarded in 2001 were divided as follows:

- | | |
|----------------------------------|-------------------|
| • Supply contracts | Listed in Annex 1 |
| • Service contracts | Listed in Annex 2 |
| • Works contracts | Listed in Annex 3 |
| • Classical sector by CPV Number | Listed in Annex 4 |
| • Utilities sector | Listed in Annex 5 |
| • Utilities sector by CPV Number | Listed in Annex 6 |
| • Nationality of suppliers | Listed in Annex 7 |

1. Total

This statistical report covers 218 contract awards with a total value of Nkr 6,690 million.

Of the 218 contract awards, there were:

- 104 supply contracts, with a total contract value of Nkr 3,253 million
- 83 service contracts, with a total contract value of Nkr 2,385 million
- 37 works contracts, with a total contract value of Nkr 1,089 million
- 35 utilities contracts, with a total contract value of Nkr 834 million.

2. Supply contracts (Annex 1)

The 104 supply contract awards given by 49 contracting authorities had a total value of Nkr 3,253 million. Approximately 4.2 per cent of the contracts were awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the supply contracts, 83 contracts were awarded by open procedure, accounting for 86 per cent of the value of supply contracts; nine contracts were awarded by restricted procedure, accounting for 1 per cent of the value of supply contracts; and 18 contracts were awarded by negotiated procedure, accounting for 13 per cent of the value of supply contracts.

3. Service contracts (Annex 2)

A total of 36 contracting authorities awarded 83 service contracts with a total value of Nkr 2,385 million. Approximately 0.4 per cent of the contracts were awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the 83 contracts, 37 contracts were awarded by open procedure, representing 13 per cent of the total value of service contracts; 10 contracts were awarded through restricted procedure, accounting for 16 per cent of the value of service contracts; and 36 contracts were awarded through negotiated procedure, accounting for 71 per cent of the value of service contracts.

4. Works contracts (Annex 3)

A total of 20 contracting authorities awarded 37 works contracts with a total value of Nkr 1,089 million. Approximately 2.7 per cent of the contracts were awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the 37 contracts, 29 contracts were awarded by open procedure, representing 93 per cent of the total value of works contracts; two were awarded through restricted procedure, accounting for 3 per cent of the value of works contracts; and six contracts were awarded through negotiated procedure; accounting for four per cent of the value of works contracts.

5. Utility contracts (Annexes 5 and 6)

The 35 utility contract awards published in TED were awarded by 17 contracting authorities, and have a total value of Nkr 824 million. Eight contracts were awarded using open procedure and accounts for 21 per cent of the total number. Restricted procedure was used in four cases, consisting of 17 per cent of the total value, and 23 contracts were awarded using the negotiated procedure, representing 62 per cent of the total value of the contracts awarded.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics, all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts in the classical sector were awarded to suppliers with a foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is usually no indication in the notice in TED as to which main project these contract awards belong to, or whether the subcontract is included in the main project or not.

3. Prices and estimated value

All prices are given in Norwegian kroner (Nkr), excluding "Merverdi avgift" (VAT).

Some contract awards do not state the price. Contracting authorities in the utilities sector are not obliged to state the contract value in post contract award notices. Contracting authorities in the classical sector may postpone publishing the contract value to guard commercial interests.

4. Listing of contracts by CPV number

Of the contracts awarded by the classical sector, all contracts were not assigned to a CPV number. Thus, the summing of contracts in Annex 4 will not add up completely with the total number of contracts reported in Annexes 1 to 3.

STATISTICS FOR 2000 REPORTED UNDER ARTICLE XIX:5 OF THE AGREEMENT

Report by Norway¹

Addendum

¹ Annexes in English only/en anglais seulement/en inglés solamente.

The following communication contains the Norwegian statistical report on public procurement for 2000. The report shows the value of public contracts subdivided by type (supplies, works or services) and by procedure (open, restricted and negotiated). There are also indications on nationality of the suppliers and products. A listing by CPV numbers on a two-digit level is also included in the statistical report presented. The statistical material is based on information from TED (Tenders Electronic Daily) where 339 contract awards with a total value of NOK 8005 million were found. The statistical material indicates that about 5 percent of the contracts were awarded to foreign suppliers. The actual figure is, however, higher because of the number of Norwegian suppliers that are subsidiaries of foreign companies, or agents for foreign companies is unknown.

I. BACKGROUND

This Statistical Report on Public Procurement under the General Procurement Agreement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 2000, divided into two groups: classical sector and utility sector. The classical sector includes procuring entities listed in Annex 1 and 2 in the GPA. The utility sector includes procuring entities in Annex 3 to the GPA.

The report is divided by CPV codes and type of procurement (supplies, services and works). Each type of procurement is further subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits.

II. METHOD

Contracting authorities that have awarded a contract above thresholds, shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronics Daily (TED) database. In order to present all contracts awarded in Norway in 2000, a printout from TED 2000 was made. All contracts awarded in 2000 were divided as follows:

- Supply contracts Listed in Annex 1
- Service contracts Listed in Annex 2
- Works contracts Listed in Annex 3
- Classical sector by CPV Number Listed in Annex 4
- Utilities sector Listed in Annex 5
- Utilities sector by CPV Number Listed in Annex 6

1. Total

This statistical report covers 339 contract awards with total value of NOK 8004 million.

Of the 333 contract awards there were :

- 155 supply contracts, with total contract value of NOK 4731 million
- 82 service contracts, with total contract value of NOK 1492 million
- 36 works contracts, with total contract value of NOK 8845 million

- 66 utilities contracts, with total contract value of NOK 898 million.

2. Supply contracts (Annex 1)

The 155 supplies contract awards given by 63 contracting authorities had a **total value of NOK 4731 million**. Approximately 5 per cent of the contracts were awarded directly to foreign suppliers. The foreign suppliers are mainly located in Northern Europe.

Of the supply contracts, 143 contracts were awarded by open procedure, accounting for 92 per cent of the value of supply contracts; 9 contracts were awarded by restricted procedure, accounting for 5 per cent of the value of supply contracts; and 3 contracts were awarded by negotiated procedure, accounting for 3 per cent of the value of supply contracts.

3. Service contracts (Annex 2)

A total of 47 contracting authorities awarded 82 service contracts with a **total value of NOK 1492 million**. 2 contracts were awarded directly to foreign suppliers from France and the UK. The rest were awarded to suppliers with postal address within Norway. Of the 82 contracts 51 contracts were awarded by open procedure, representing 66 per cent of total value of service contracts; 9 contracts were awarded through restricted procedure, accounting for 8 per cent of the value of service contracts; 23 contracts were awarded through negotiated procedure; accounting for 26 per cent of the value of service contracts.

4. Works contracts (Annex 3)

A total of 16 contracting authorities awarded 85 works contracts with a **total value of NOK 884 million**. The contracts were awarded to suppliers with postal address within Norway, and two contracts to Denmark and the UK, respectively. Of the 34 contracts 32 were awarded by open procedure, representing 94 per cent of total value of works contracts; 2 contracts were awarded through negotiated procedure; accounting for 6 per cent of the value of works contracts.

5. Utility contracts (Annexes 5 and 6)

The 66 utility contract awards published in TED were awarded by 29 contracting authorities, and have a **total value of NOK 898 million**. Ten contracts were awarded using open procedure and accounts for 15 per cent of the total number. Restricted procedure was used in 2 cases, consisting of 3 per cent of the total value, and 55 contracts were awarded using the negotiated procedure, representing 83 per cent of the total value of the contracts awarded.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts in the classical sector were awarded to suppliers with foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is usually no indication in the notice in TED, as to which main project these contract awards belong to, or whether the subcontract is included in the main project or not.

3. Prices and estimated value

All prices are given in Norwegian kroner (NOK), excluding Value Added Tax).

Some contract awards do not state the price. Contracting authorities in the utilities sector are not obliged to state the contract value in post contract award notices. Contracting authorities in the classical sector may postpone publishing the contract value to guard commercial interests.

4. Listing of contracts by CPV number

Of the contracts awarded in the by the classical sector, all contracts were not assigned to a CPV number. Thus, the summing of contracts in Annex 4 will not add up completely with the total number of contracts reported in Annexes 1 to 3.

STATISTICAL REPORT FOR 1999 ON PUBLIC PROCUREMENT ACCORDING TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

NORWAY

The following communication contains the Norwegian statistical report on public procurement for 1999. The report shows the value of public contracts subdivided by type (supplies, works or services) and by procedure (open, restricted and negotiated). There are also indications on nationality of the suppliers and products. A listing by CPV numbers on a two-digit level is also included in the statistical report presented.

The statistical material is based on information from TED (Tenders Electronic Daily) where 410 contract awards with a total value of Nkr 9 billion were found. The statistical material indicates that about five per cent of the contracts were awarded to foreign suppliers. The actual figure is, however, higher because of the number of Norwegian suppliers that are subsidiaries of foreign companies, or agents for foreign companies is unknown.

I. BACKGROUND

This Statistical Report on Public Procurement under the Agreement on Government Procurement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 1999, divided into two groups: classical sector and utility sector. The classical sector includes procuring entities listed in Annexes 1 and 2 to the GPA. The utility sector includes procuring entities listed in Annex 3 to the GPA.

The report is divided by CPV codes and type of procurement (supplies, services and works). Each type of procurement is further subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits.

II. METHOD

Contracting authorities that have awarded a contract above thresholds, shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronic Daily (TED) database. In order to present all contracts awarded in Norway in 1999, a printout from TED 1999 was made. All contracts awarded in 1999 were divided as follows:

- | | |
|----------------------------------|-------------------|
| • Supply contracts | Listed in Annex 1 |
| • Service contracts | Listed in Annex 2 |
| • Works contracts | Listed in Annex 3 |
| • Classical sector by CPV Number | Listed in Annex 4 |
| • Utilities sector | Listed in Annex 5 |
| • Utilities sector by CPV Number | Listed in Annex 6 |

1. Total

This statistical report contains 410 contract awards with a total value of Nkr 9 billion.

Of the 410 contract awards, there were:

- 167 supply contracts, with a total contract value of Nkr 3,438 million

- 113 service contracts, with a total contract value of Nkr 2,482 million
- 84 works contracts, with a total contract value of Nkr 2,226 million
- 101 utilities contracts, with a total contract value of Nkr 447 million.

2. Supply contracts (Annex 1)

The 167 supplies contract awards given by 68 contracting authorities had a **total value of Nkr 2,121 million**. Approximately five per cent of the contracts were awarded directly to foreign suppliers. The foreign suppliers are mainly located in northern Europe.

Of the supply contracts, 146 contracts were awarded by open procedure, accounting for 91.3 per cent of the value of supply contracts; nine contracts were awarded by restricted procedure, accounting for 1.4 per cent of the value of supply contracts; and 16 contracts were awarded by negotiated procedure, accounting for 7.2 per cent of the value of supply contracts.

3. Service contracts (Annex 2)

A total of 58 contracting authorities awarded 113 service contracts with a **total value of Nkr 2,983 million**. One contract was awarded directly to foreign suppliers from Denmark and the United Kingdom. The rest were awarded to suppliers with a postal address within Norway. Of the 113 contracts, 73 contracts were awarded by open procedure, representing 66 per cent of the total value of service contracts; 17 contracts were awarded through restricted procedure, accounting for three per cent of the value of service contracts; and 24 contracts were awarded through negotiated procedure, accounting for 31 per cent of the value of service contracts.

4. Works contracts (Annex 3)

A total of 17 contracting authorities awarded 85 works contracts with a **total value of Nkr 2,539 million**. The contracts were awarded to suppliers with a postal address within Norway. Of the 85 contracts, 77 contracts were awarded by open procedure, representing 95 per cent of the total value of works contracts; four were awarded through restricted procedure, accounting for 2.3 per cent of the value of works contracts; and four contracts were awarded through negotiated procedure; accounting for 2.3 per cent of the value of works contracts.

5. Utility contracts (Annexes 5 and 6)

The 101 utility contract awards published in TED were awarded by 18 contracting authorities, and have a **total value of Nkr 1,862 million**. Twenty-nine contracts were awarded using open procedure and accounts for 60.4 per cent of the total number. Restricted procedure was used in 17 cases, consisting of 10.9 per cent of the total value, and 36 contracts were awarded using the negotiated procedure, representing 28.6 per cent of the total value of the contracts awarded.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics, all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts in the classical sector were awarded to suppliers with a foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is usually no indication in the notice in TED as to which main project these contract awards belong to, or whether the subcontract is included in the main project or not.

3. Prices and estimated value

All prices are given in Norwegian kroner (Nkr), excluding "Merverdi avgift" (VAT).

Some contract awards do not state the price. Contracting authorities in the utilities sector are not obliged to state the contract value in post contract award notices. Contracting authorities in the classical sector may postpone publishing the contract value to guard commercial interests.

4. Listing of contracts by CPV number

Of the contracts awarded by the classical sector, all contracts were not assigned to a CPV number. Thus, the summing of contracts in Annex 4 will not add up completely with the total number of contracts reported in Annexes 1 to 3.

STATISTICAL REPORT FOR 1998 ON PUBLIC PROCUREMENT ACCORDING TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

NORWAY

I. BACKGROUND

This Statistical Report on Public Procurement under the Agreement on Government Procurement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 1998, in each sector (supplies, works, services and utilities). The report is subdivided by procedure, and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits. In addition, there is a subdivision indicated through CPV titles.

II. METHOD

Contracting authorities who have awarded a contract above thresholds, shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronic Daily (TED) database. In order to present all contracts awarded in Norway in 1998, a printout from TED 1998 (TD 98) was made. All contracts awarded in 1998 were divided as follows:

- | | |
|----------------------------------|-------------------|
| • Supply contracts | Listed in Annex 1 |
| • Service contracts | Listed in Annex 2 |
| • Works contracts | Listed in Annex 3 |
| • Classical sector by CPV Number | Listed in Annex 4 |
| • Utilities sector | Listed in Annex 5 |
| • Utilities sector by CPV Number | Listed in Annex 6 |

1. Statistics

According to the TED database, there were 552 contract awards under the GPA during 1998.

For calculation of the listing by CPV number, an uniform distribution is anticipated for contracts with more than one product category. This anticipation is of course not valid in terms of exact number; but as the table below shows, approximately 81 per cent of the contracts and 73 per cent of the total value of contracts belongs in the group with only one product category (at the two-digit CPV level), 19 per cent with more CPV categories pr. contract. Consequently, we believe the errors made by this anticipation are insignificant. We divide the multiple CPV indications by the number of different titles and distribute these numbers equally between the CPV titles. One will therefore get a slightly higher number of contracts than reality because of this subdivision.

CPV Number pr. contract	Number of contracts	In % of total	Total Value of contracts in million Nkr	In % of total
1	449	81.34	6,117	73.23
2	76	13.77	2,039	24.37
3	22	3.99	98	1.17
4	4	0.80	66	0.77
5	0	0	0	0
6	1	0,18	5	0.05
Sum	552	100.00	8,326	100.00

2. Total

This statistical report contains 552 contract awards with a total value of Nkr 8,326 million.

3. Nature of contract

Out of 552 contract awards, there were:

- 280 supply contracts
- 124 service contracts
- 148 works contracts
- including 69 utilities contracts within the three above.

4. Supply contracts (Annex 1)

The 280 supplies contract awards given by 109 contracting authorities had a **total value of Nkr 3,531 million**. Approximately 5 per cent of the contracts were awarded directly to foreign suppliers. The foreign suppliers are mainly located in northern parts of Europe – Sweden, Denmark, Germany and the United Kingdom.

Of the supply contracts, 207 were awarded by open procedure, accounting for 74 per cent of the value of supply contracts; 25 contracts were awarded by restricted procedure, accounting for 9 per cent of the value of supply contracts; and 48 contracts were awarded by negotiated procedure, accounting for 17 per cent of the value of supply contracts.

5. Service contracts (Annex 2)

A total of 90 contracting authorities awarded 124 service contracts with a **total value of Nkr 2,548 million**. Two contracts were awarded directly to a foreign supplier - from the United Kingdom and Sweden. The rest were awarded to suppliers with a postal address within Norway. Of the 124 contracts, 84 were awarded by open procedure, representing 68 per cent of the total value of service contracts; 13 contracts were awarded through restricted procedure, accounting for 10 per cent of the value of service contracts; and 27 contracts were awarded through negotiated procedure, accounting for 22 per cent of the value of service contracts.

6. Works contracts (Annex 3)

A total of 18 contracting authorities awarded 148 works contracts with a **total value of Nkr 2,262 million**. One contract was awarded directly to a foreign supplier - from Sweden. The rest were awarded to suppliers with a postal address within Norway. Of the 148 contracts, 122 were

awarded by open procedure, representing 82 per cent of the total value of works contracts; 9 were awarded through restricted procedure, accounting for 6 per cent of the value of works contracts; and 17 contracts were awarded through negotiated procedure; accounting for 11 per cent of the value of works contracts.

7. Utility contracts (Annexes 5 and 6)

Of the 69 utility contract awards published in TED, 10 are missing information on contract value. These utility contracts were awarded by 23 contract authorities, and have a **total value of Nkr 563 million**.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics, all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts in the classical sector were awarded to suppliers with a foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is seldom an indication in the notice in TED as to which main project these contract awards belong to.

3. Prices and estimated value

All prices are given in Norwegian kroner (Nkr), excluding value-added tax.

Many notices of contract awards, however, did not state the price. The main reason for this was that many were framework agreements making it difficult for the contracting authority to give an estimate. The contracting authorities were asked to estimate the value/price where this was not stated (cf. method). For the utilities sector, many of the contracting authorities were reluctant to state contract values at all.

Also, in the cases where the price had been specified as a maximum/minimum price level, the contracting authorities were asked to give an estimate of contract value.

4. Listing of contracts by CPV number

The difference between the sum in Annexes 4 and 6, and the total value referred to above for classical sectors and utility sectors respectively, is mostly due to rounding of the figures, and that two contracts in the utilities sector were not assigned to any CPV number. Summing the number of contracts in Annexes 4 and 6 by each CPV number will not make sense, as one contract would be counted several times due to the fact that some contracts contain several CPV categories.

¹ English only/en anglais seulement/en inglés solamente.

The following communication contains the Norwegian statistical report on public procurement for 1997, covering procurements by entities included in Annexes 1, 2 and 3 to the Agreement on Government Procurement. The report shows the value of public contracts subdivided by type (supplies, works or services) and by procedure (open, restricted or negotiated). There are also indications on nationality of the suppliers and products. A listing by CPV numbers on a two-digit level is also included.

The statistical material is based on information from TED (Tenders Electronic Daily) where 629 contract awards with a total value of Nkr 11,904 million were found. The statistical material indicates that about 5 per cent of the contracts were awarded to foreign suppliers. The actual figure is, however, higher because of the number of Norwegian suppliers that are subsidiaries of foreign companies, or agents for foreign suppliers is unknown.

STATISTICAL REPORT FOR 1997 ON PUBLIC PROCUREMENT ACCORDING TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

Norway

I. BACKGROUND

This Statistical Report on public procurement under the Agreement on Government Procurement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 1997, divided in two groups: classical sector and utility sector. The classical sector includes procuring entities listed in Annexes 1 and 2 to the GPA. The utility sector includes procuring entities in Annex 3 to the GPA.

For the classical sector, the report is divided by type of procurement (supplies, services and works). Each type of procurement in the classical sector is further subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits. For the Utilities (i.e. entities covered by Annex 3 to the GPA), these statistics were not available.

II. METHOD

Contracting authorities that have awarded a contract above thresholds shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronic Daily (TED) database. In order to present all contracts awarded in Norway in 1997, a printout from TED 1997 (TD 97) was made. All contracts awarded in 1997 were divided as follows:

- | | |
|----------------------------------|-------------------|
| • Supply contracts | Listed in Annex 1 |
| • Service contracts | Listed in Annex 2 |
| • Works contracts | Listed in Annex 3 |
| • Classical sector by CPV Number | Listed in Annex 4 |
| • Utilities sector | Listed in Annex 5 |
| • Utilities sector by CPV Number | Listed in Annex 6 |

1. Total

This statistical report covers 629 contracts awards with total value of Nkr 11,904 million.

Of the 629 contract awards there were:

- 260 supply contracts, with total contract value of Nkr 5,460 million
- 139 service contracts, with total contract value of Nkr 2,040 million
- 143 works contracts, with total contract value of Nkr 1,803 million
- 87 utilities contracts, with total contract value of Nkr 2,602 million

2. Supply contracts (Annex 1)

The 260 supplies contract awards given by 109 contracting authorities had a **total value of Nkr 5,460 million**. Of the supply contracts, 30 were published without contract value. Approximately 5 per cent of the contracts were awarded directly to foreign suppliers. The foreign suppliers are mainly located in northern parts of Europe - Sweden, Denmark, Germany and Great Britain.

Of the supply contracts, 176 contracts were awarded by open procedure, accounting for 53 per cent of the value of supply contracts; 23 contracts were awarded by restricted procedure, accounting for 7 per cent of the value of supply contracts; and 61 contracts were awarded by negotiated procedure, accounting for 40 per cent of the value of supply contracts.

3. Service contracts (Annex 2)

A total of 90 contracting authorities awarded 139 service contracts with a **total value of Nkr 2,040 million**. Ten of the service contracts were published without indication of contract value. One contract was awarded directly to a foreign supplier - from Great Britain. The rest were awarded to suppliers with a postal address within Norway. Of the 138 contracts, 92 contracts were awarded by open procedure, representing 75 per cent of the total value of service contracts; 33 contracts were awarded through restricted procedure, accounting for 22 per cent of the value of service contracts; and 14 contracts were awarded through negotiated procedure, accounting for 3 per cent of the value of service contracts.

4. Works contracts (Annex 3)

A total of 15 contracting authorities awarded 143 works contracts with a **total value of Nkr 1,803 million**. Of these contracts, two were published without information on contract value. Two contracts were awarded directly to a foreign supplier - from Sweden. The rest were awarded to suppliers with a postal address within Norway. Of the 143 contracts; 131 were awarded by open procedure, representing 87 per cent of the total value of works contracts; two were awarded through restricted procedure, accounting for 5 per cent of the value of works contracts; and 12 contracts were awarded through negotiated procedure; accounting for 8 per cent of the value of works contracts.

5. Utility contracts (Annexes 5 and 6)

Of the 87 Utility contract awards published in TED, 21 are missing information on contract value. These contracts (87) were awarded by 29 contract authorities, and have a **total value of Nkr 2,602 million**. Below-threshold values, 45 contracts were awarded with a **total value of Nkr 213 million**. Statistics about direct awards to foreign suppliers are at present not available, neither is the distribution by procedures.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics, all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts in the classical sector were awarded to suppliers with foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is usually no indication in the notice in TED, as to which main project these contract awards belong to, or whether the subcontract is included in the main project or not.

3. Prices and estimated value

Fifty-three notices of contract awards did not state the price. Contracting authorities in the utilities sector are not obliged to state the contract value in post contract award notices. Contracting authorities in the classical sector may postpone publishing the contract value to guard commercial interests. Of the 53 contract awards without price statement, 38 were supply contracts, 14 were service contracts, nine were works contracts and 18 were utility contracts.

4. Listing of contracts by CPV number

Of the contracts awarded by the classical sector, three contracts were not assigned to a CPV number. Thus, the summing of contracts in Annex 4 will not add up with the total number of contracts reported in Annexes 1 to 3.

Reference year: 1996

Background

This Statistical Report on Public Procurement includes the number and value of contracts awarded by each contracting authority above threshold in 1996, in each sector (supplies, works, services and utilities). The report is subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits. For the Utilities sector figures for procurement below thresholds are included, divided by type of procuring entity.

Method

Contracting authorities who have awarded a contract above thresholds shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronics Daily (TED) database. In order to present all contracts awarded in Norway in 1996, a printout from TED 1996 (TD 96) was made. All contracts awarded in 1996 were divided as follows:

Supply contracts	Listed in Annex 1
Service contracts	Listed in Annex 2
Works contracts	Listed in Annex 3
Classical sector by CPV Number	Listed in Annex 4
Utilities sector	Listed in Annex 5
Utilities sector by CPV Number	Listed in Annex 6

Statistics

According to the TED database there were 1,782 calls for tender from 1 October 1995 to 9 September 1996, and **1,212 contract awards during 1996**. Of the 1,212 contract awards 232 were missing information about contract value. In order to fill in the missing information a telephone inquiry were made. Which resulted in 125 answers, 21 of these were framework agreements. Of the remaining 104 contracts, 39 are without information about contract value.

For calculation of the listing by CPV number, an uniform distribution is anticipated for contracts with more than one product category. This anticipation is of course not valid in terms of exact numbers; but as the table below shows, approximately 82 per cent of the contracts and 84 per cent of the total value of contracts belongs in the group with only one product category (at the two-digit CPV level), thus leaving only 18 per cent for contracts with either no indication of CPV category, or with more CPV categories pr. contract. Consequently we believe the errors made by this anticipation are insignificant.

Total

This statistical report contains 1,212 contracts awards with total value of Nkr 46.892 million.

Nature of contract

Out of 1,212 contract awards there were:

323 supply contracts
138 service contracts
243 works contracts
508 utilities contracts

Supply contracts (Annex 1)

The 323 supplies contract awards given by 109 contracting authorities had a total value of Nkr 3.052 million. Approximately 6 per cent of the contracts were awarded directly to foreign suppliers. The foreign suppliers are mainly located in northern parts of Europe - Sweden, Denmark, Germany and Great Britain.

Of the supply contracts 251 were awarded by open procedure, accounting for 75 per cent of the value of supply contracts; 53 contracts were awarded by restricted procedure, accounting for 18 per cent of the value of supply contracts; and 19 contracts were awarded by negotiated procedure, accounting for 8 per cent of the value of supply contracts.

Service contracts (Annex 2)

A total of 73 contracting authorities awarded 138 service contracts with a **total value of Nkr 1.388 million**. One contract was awarded directly to a foreign supplier - from Denmark. The rest were awarded to suppliers with postal address within Norway. Of the 138 contracts 92 were awarded by open procedure, representing 82 per cent of total value of service contracts; 30 were awarded through restricted procedure, accounting for 12 per cent of the value of service contracts; 13 contracts were awarded through negotiated procedure; accounting for 6 per cent of the value of service contracts.

Works contracts (Annex 3)

A total of 20 contracting authorities awarded 243 works contracts with a **total value of Nkr 1.960 million**. One contract was awarded directly to a foreign supplier - from France. The rest were awarded to suppliers with postal address within Norway. Of the 243 contracts 213 were awarded by open procedure, representing 79 per cent of total value of works contracts; 27 were awarded through restricted procedure, accounting for 19 per cent of the value of works contracts; 3 contracts were awarded through negotiated procedure; accounting for 2 per cent of the value of works contracts.

Utility contracts (Annexes 5 and 6)

Of the 508 Utility contract awards published in TED 153 are missing information on contract value. These contracts (508) were awarded by 48 contract authorities, and have a **total value of Nkr 28.716 million**. Below threshold values 224 procuring entities awarded contracts with a **total value of Nkr 11.775 million**. It should be noted that due to differences in the methods collecting data these figures for contracts above and below thresholds are not directly comparable. It should be

further noticed that the reported figures are not exhaustive with respect to the utilities sector. Statistics about direct awards to foreign suppliers are at present not available, neither is the distribution by procedures.

Comments

Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics all nationalities have been noted regardless of how large a part they were awarded respectively.

Only 6 per cent of the contracts in the classical sector were awarded to suppliers with foreign postal address. This figure is however somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is seldom an indication in the notice in TED as to which main project these contract awards belong to.

Prices and estimated value

All prices are given in Norwegian kroner (Nkr), excluding «Merverdi avgift» (VAT). The value of the Norwegian currency expressed in ECUs is based on the latest revision of the values of the thresholds in national currencies, i.e. ECU 1 • Nkr 8,15.

Many notices of contract awards, however, did not state the price. The main reason for this was that many were framework agreements making it difficult for the contracting authority to give an estimate. The contracting authorities were asked to estimate the value/price where this was not stated (cf. method). For the utilities sector many of the contracting authorities were reluctant to state contract values at all.

Also in the cases where the price had been specified as a maximum/minimum price level, the contracting authorities were asked to give an estimate of contract value.

Listing of contracts by CPV number

The difference between the sum in annexes 4 and 6, and the total value referred to above for classical sectors and utility sectors respectively, is mostly due to rounding of the figures, and that two contracts in the utilities sector were not assigned to any CPV number. Summing the number of contracts in annexes 4 and 6 by each CPV number will not make sense, as one contract would be counted several times due to the fact that some contracts contain several CPV categories.
