

April 3rd, 2008

To: University of Genoa, Department of Casaregi

In attention of: Laura Carpaneto

Also for: Ilaria Queirolo

Ref.: NARB Seminar

Dear Laura,

In the following I would like to present you with the Report on the REMOR Seminar organized by NARB (hereinafter "**the Seminar**") on the March 13th – 14th, 2008. The Seminar has been organized at the premises of the National Institute for the Preparation and Development of Lawyers (hereinafter "**INPPA**") with its headquarters in Bucharest, no. 185 Calea Vacaresti (within the headquarters of the "Nicolae Titulescu" University – a renowned Romanian superior learning facility).

The participants at the Seminar were Romanian lawyers, most of them attendees of the INPPA courses. We have benefited from the participation of 174 lawyers as it can be observed from the attached list.

In organizing our seminar we have asked a series of renowned specialists to attend as speakers and from these the following have participated:

- Dr. Gheorghe Florea – President of NARB, Attorney at law from the Bucharest Bar. Mr. Florea delivered an opening statement for the REMOR Seminar.
- Dr. Radu Bogdan Bobei – Attorney at law from the Bucharest Bar and lecturer at the Bucharest University, Faculty of Law. Mr. Bobei delivered two presentations in connection to the following:
(i) Maintenance obligations in the Romanian Law. The European legal system perspective (ii) International Conventions in the field of maintenance obligations.
- Mr. Constantin Voicescu – Attorney at law from the Bucharest Bar. Mr. Voicescu made a presentation of the following:
Appliance of the New York convention in the field of maintenance obligations in the practice of the Bucharest Bar. Actual and future problems.
- Mrs. Anca Sarbescu Relevici – Student at the Titu Maiorescu University in Bucharest, Psychology Faculty. Mrs. Sarbescu made a presentation of *The Psychological implications of the parents’ divorce on the development of children. Consequences of non payment of the maintenance obligations.*
- Drd. Stefan Naubauer – Attorney at law from the Bucharest Bar and vice executive manager of INPPA. Mr. Naubauer has assisted me in the management of the Seminar.

Also, I have made a presentation about the REMOR Project as a whole, about the implications of being a partner in a European project and more specifically about the objectives of the REMOR Project. I have presented the deliverables achieved by the REMOR Project and the benefits of its implementation.

The Seminar has been conducted in an interactive manner which implied that the participants were able to ask questions to the lecturers and also to make statements of their own if they wished to do so.

The REMOR Seminar organized by N.A.R.B. in Romania permitted the Romanian legal practitioners to get acquaintance of the newest developments in private international law and community law. Also, it offered them the possibility to benefit from the experience of their lecturers who, faced with different situations in their attorney practice, have developed adequate responses to these impasses.

Also, participants benefited from the knowledge of a person involved in psychology, and thus have been informed on the impacts that divorce and late or non payment of maintenance obligations have on the development of children. These information generated discussions among the participants who were willing to inform their future clients on the psychological implications in discussion.

In the end, the discussions shifted towards the future use of mediation in family disputes. These discussions were generated by the recent

entering into force of law no. 192/2006 regarding the mediation procedure.

It is to be mentioned that participants to the seminar have been given the printed version of the Microsoft Power Point Presentation realized by the lecturers. Thus, the participants have been able to follow in depth the lectures and to formulate questions and statements.

In conclusion I would like to inform you and all partners that the REMOR Seminar organized by N.A.R.B. has constituted a success from several points of view, but most of all because of the fact that the participants have gained a practical knowledge which they are going to use in their daily work.

Best regards,

Alina Cobuz Bagnaru
